Subject: Spanish Phone Call

I got a call from Jauquim Nieves regarding a letter he recieved to sample his property. He speaks spanish. Could you have a spanish speaker return his call. His phone number is 303-296-3961.

His address is 4802 Steele Street, which he got the letter to be sampled. He also owns a property at 4446 St. Paul which also needs to be sampled. He could put both addresses on the access agreement and send back to UOS, the contractor conducting the sampling (there was an addressed return envelope included with the letter we sent him). Soil sampling will resume in late May. UOS will contact him prior to sampling.

Thanks
